FEATURES

Water-i.d.® Pooltesters & Testblocks match the classic way of how to reliably test your pool and spa water. All our Pooltesters & Testblocks have a white background. By that, reading the result is easy and won't be disturbed by background colours.

Chambers behind the colour charts can be filled with water as well, to automatically adjust the scale colours, in case the water to be tested is pre-coloured. Water-i.d.® Pooltesters & Testblocks work with German made, rapid dissolving Water-i.d.® reagents.

More than 3 million users trust the Water-i.d.® Pooltesters & Testblocks already – How about you?
